

# **CAPABILITY STATEMENT**

## **INFRASTRUCTURE & PERSONNEL PROTECTION SERVICES**

Trident Security is comprised of former military specialist and law enforcement officers who have spent their professional careers protecting people, critical infrastructure, sensitive materials and national assets. Our staff has successfully completed projects for local, state and federal agencies; as well as small businesses and Fortune 500 companies. We are fully insured and licensed.

Risk is embedded in daily business; therefore, the need to establish a security risk mitigation program tailored to your operations and personnel is essential. Trident Security will help your staff understand and prioritize the security risks; then work collaboratively with your different stakeholders and departments to determine which safety and security measures to implement to mitigate those risks. By integrating the necessary security practices and systems, we will help you create a defense in depth that deters illegal activity, identify threats and responds in a timely manner.
